RE: Rental Estimate – 28 Erindale Court, Yakamia WA 6330

As part of the services Wellington & Reeves provides to our clients, we have completed a rental estimate for the above property.

The property has several features that are likely to appeal to prospective tenants, including:

- Four bedroom, two bathroom home with spacious open plan kitchen, dining and family living areas
- Outdoor patio and low maintenance backyard, ideal for entertaining and relaxed family living
- Powered 6m x 5m garage/workshop, garden shed and ample parking for a caravan, boat and additional vehicles
- Convenient Yakamia location within walking distance to schools, shops, bus stops, sporting grounds and medical facilities

Based on the property's location, condition, presentation and features, along with a comparison to similar properties in the current rental market, we estimate the property could achieve a rental return of \$780.00 to \$820.00 per week.

This estimate is based on current market conditions and should be used as a guide. The final rental price achieved will depend on factors such as market demand, the time of year and the property's presentation when advertised.

Rental demand changes throughout the year and can affect the rent achieved. Our goal is to secure the best possible rental price while attracting quality tenants.

Before a tenancy can begin, all residential rental properties must meet the required safety standards, including smoke alarms, RCDs, security and blind cord safety. We are happy to assist you in ensuring your property complies with these requirements.

The salinity in groundwater in Western Australia varies considerably. This depends on many factors such as geology, topography, climate and coastal seawater intrusion.

Due to the fluid nature of ground conditions it is only possible to report on a indicative reading for the groundwater salinity that exists at this location.

If the groundwater salinity at this location is important then you should contact the closest regional office for advice on this subject.

Groundwater Salinity:

TDS per milligram per litre - 500-1000

Salinity is the measure of total dissolved solids (TDS) or salts in water and is reported as milligrams per litre (mg/L).

The range of salinity of natural water is:

Category	Salinity range
Fresh	0-500 mg/L TDS (suitable for selected agricultural use)
Marginal	500-1000 mg/L TDS (suitable for selected agricultural use)
Brackish	1000-3000 mg/L TDS (used for parkland irrigation)

Low or unknown risk
This location has not experienced high rates of mosquito-borne disease in the past. However, the sporadic nature of mosquito-borne disease outbreaks means that this not necessarily a precise indicator of future risk. Furthermore, regions with low or no resident human population may also be classified as low risk even though there may be an undocumented high risk in the area. Finally, significant mosquito nuisance issues may still be experienced, despite a low health risk.

Residents are advised to avoid exposure to mosquitoes and minimise mosquito

imbalance in the current is detected. At least two RCDs must be fitted before land title is transferred.

Affect of Interest:

All home sellers and landlords must ensure that RCDs are installed in accordance with the Electricity Regulations to protect all power points and lighting circuits. RCDs cut the electricity supply instantly if a person touches a live part and receives a shock. By installing two or more RCDs, the property's circuits can be divided evenly between them, ensuring some light and power remains if one RCD operates. Multiple RCDs also avoid nuisance operation caused by appliances with low-level leakage currents. All properties constructed after 2000 should already have two RCDs fitted. Two RCDs must be fitted to protect all power points and lighting circuits in all homes before the land title is transferred. If you are planning to sell your home and it does not already have two RCDs protecting all power point and lighting circuits, you will need to engage a licensed electrical contractor to install them to comply with the Electricity Regulations.

Landlords must ensure RCDs are installed in accordance with the Electricity Regulations. If RCDs are not fitted, tenants should contact the managing agent or landlord and request that RCDs be installed as required.

Affect of Interest:

The Building Regulations 2012 in Western Australia requires owners to have mains-powered smoke alarms fitted to all dwellings that are subject to transfer of ownership, rent and hire, regardless of when they were built.

The smoke alarms must:

- be installed in the dwelling in accordance with the Building Code of Australia applicable at the time of installation of the alarms;
